

AOLEs - Statements of what matters	
Expressive Arts	
Exploring the expressive arts is essential to developing artistic skills and knowledge and it enables learners to become curious and creative individuals.	
Responding and reflecting, both as artist and audience, is a fundamental part of learning in the expressive arts.	
Creating combines skills and knowledge, drawing on the senses, inspiration and imagination.	
Health and Well-being	
Developing physical health and well-being has lifelong benefits.	
How we process and respond to our experiences affects our mental health and emotional well-being.	
Our decision-making impacts on the quality of our lives and the lives of others.	
How we engage with social influences shapes who we are and affects our health and well-being.	
Healthy relationships are fundamental to our well-being.	
Humanities	
Enquiry, exploration and investigation inspire curiosity about the world, its past, present and future.	
Events and human experiences are complex, and are perceived, interpreted and represented in different ways.	
Our natural world is diverse and dynamic, influenced by processes and human actions.	
Human societies are complex and diverse, and shaped by human ac- tions and beliefs.	
Informed, self-aware citizens engage with the challenges and opportunities that face humanity, and are able to take considered and ethical action.	
Languages, Literacy and Communication	
Languages connect us.	
Understanding languages is key to understanding the world around us.	
Expressing ourselves through languages is key to communication.	
Literature fires imagination and inspires creativity.	

AOLEs - Statements of what matters		
Mathematics and Numeracy		
The number system is used to represent and compare relationships between numbers and quantities.		
Algebra uses symbol systems to express the structure of mathematical relationships.		
Geometry focuses on relationships involving shape, space and position, and measurement focuses on quantifying phenomena in the physical world.		
Statistics represent data, probability models chance, and both support informed inferences and decisions.		
Science and Technology		
Being curious and searching for answers is essential to understanding and predicting phenomena.		
Design thinking and engineering offer technical and creative ways to meet society's needs and wants.		
The world around us is full of living things which depend on each other for survival.		
Matter and the way it behaves defines our universe and shapes our lives.		
Forces and energy provide a foundation for understanding our universe.		
Computation is the foundation for our digital world.		
Literacy and Numeracy Framework		
Literacy		
Translanguaging		
Listening		
Listening for meaning		
Developing vocabulary		
Listening to understand		
Listening as part of collaborative talk		
Reading		
Phonological and phonemic awareness		
Reading strategies		
Understanding, response and analysis		
Speaking		
Clarity and vocabulary		
Purpose		
Collaborative talk		
Questioning		

Literacy and Numeracy Framework	
Literacy	
Writing	
Vocabulary, spelling, grammar	
Connectives and syntax	
Punctuation	
Planning and organising for different purposes, audiences and context	
Proofreading, editing and improving	
Numeracy	
Developing mathematical proficiency	
Conceptual understanding	
Logical reasoning	
Fluency	
Strategic competence	
Communicating with symbols	
Understanding the number system helps us to represent and compare between numbers and quantities	e relationships
The number system	
Relationships within the number system	
Calculation	
Financial literacy	
Learning about geometry helps us understand shape, space and posit about measurement helps us quantify in the real world	ion, and learning
Measurement	
Shape and space	
Position	
Angle	
Learning that statistics represent data and that probability models chainformed inferences and decisions	ance helps us make
Collecting data	
Representing data	
Interpreting data	
Digital Competency Framework	
Citizenship	
Identity, image and reputation	
Health and well-being	
Digital rights, licensing and ownership	
Online behaviour and online bullying	

Digital Competency Framework		
Interacting and collaborating		
Communication		
Collaboration		
Storing and sharing		
Producing		
Sourcing, searching and planning digital content		
Creating digital content		
Evaluating and improving digital content		
Data and computational thinking		
Problem-solving and modelling		
Data and information literacy
