•		l	ı				1	T	1	<u> </u>
Exploring the expressive arts is essential to developing artistic skills and knowledge and it enables learners to become curious and creative individuals.										
Responding and reflecting, both as artist and audience, is a fundamental part of learning in the expressive arts.										
Creating combines skills and knowledge, drawing on the senses, inspiration and imagination.										
Health and Well-being										
Developing physical health and well-being has lifelong benefits.										
How we process and respond to our experiences affects our mental health and emotional well-being.										
Our decision-making impacts on the quality of our lives and the lives of others.										
How we engage with social influences shapes who we are and affects our health and well-being.										
Healthy relationships are fundamental to our well-being.										
Humanities										
Enquiry, exploration and investigation inspire curiosity about the world, its past, present and future.										
Events and human experiences are complex, and are perceived, interpreted and represented in different ways.										
Our natural world is diverse and dynamic, influenced by processes and human actions.										
Human societies are complex and diverse, and shaped by human actions and beliefs.										
Informed, self-aware citizens engage with the challenges and opportunities that face humanity, and are able to take considered and ethical action.

AOLEs - Statements of what matters										
Languages, Literacy and Communication										
Languages connect us.										
Understanding languages is key to understanding the world around us.										
Expressing ourselves through languages is key to communication.										
Literature fires imagination and inspires creativity.										
Mathematics and Numeracy										
The number system is used to represent and compare relationships between numbers and quantities.										
Algebra uses symbol systems to express the structure of mathematical relationships.										
Geometry focuses on relationships involving shape, space and position, and measurement focuses on quantifying phenomena in the physical world.										
Statistics represent data, probability models chance, and both support informed inferences and decisions.										
Science and Technology										
Being curious and searching for answers is essential to understanding and predicting phenomena.										
Design thinking and engineering offer technical and creative ways to meet society's needs and wants.										
The world around us is full of living things which depend on each other for survival.										
Matter and the way it behaves defines our universe and shapes our lives.										
Forces and energy provide a foundation for understanding our universe.										
Computation is the foundation for our digital world.

Literacy and Numeracy Framework										
Literacy										
Translanguaging										
Listening										
Listening for meaning										
Developing vocabulary										
Listening to understand										
Listening as part of collaborative talk										
Reading										
Phonological and phonemic awareness										
Reading strategies										
Understanding, response and analysis										
Speaking										
Clarity and vocabulary										
Purpose										
Collaborative talk										
Questioning										
Writing										
Vocabulary, spelling, grammar										
Connectives and syntax										
Punctuation										
Planning and organising for different purposes, audiences and context										
Proofreading, editing and improving										

Why is the Clwydian Range and Dee Valley a hub for trade? Communities in Clwydian Range and Dee Valley What can we see in the dark? From source to sea... **COVERAGE CHART** Coming soon Coming soon Coming soon Coming soon Exploring our local designated landscape **CLWYDIAN RANGE AND DEE VALLEY** Coming 8 **NATIONAL LANDSCAPE** Literacy and Numeracy Framework **Numeracy** Developing mathematical proficiency Conceptual understanding Logical reasoning Fluency Strategic competence Communicating with symbols Understanding the number system helps us to represent and compare relationships between numbers and quantities The number system Relationships within the number system Calculation Financial literacy Learning about geometry helps us understand shape, space and position, and learning about measurement helps us quantify in the real world Measurement Shape and space Position Angle Learning that statistics represent data and that probability models chance helps us make informed inferences and decisions Collecting data Representing data Interpreting data

Digital Competency Framework	•									
Citizenship										
Identity, image and reputation										
Health and well-being										
Digital rights, licensing and ownership										
Online behaviour and online bullying										
Interacting and collaborating										
Communication										
Collaboration										
Storing and sharing										
Producing										
Sourcing, searching and planning digital content										
Creating digital content										
Evaluating and improving digital content										
Data and computational thinking										
Problem-solving and modelling										
Data and information literacy
