KEY ACTIVITIES	What is a designated landscape?	How can we develop a trail?	How do we use energy?	What is pollution?	Inspirational Wales	What are the myths and legends of Wales?	What decisions would you make as a leader in the world?	How are different areas regenerated?	How can we conserve biodiversity?	How can we welcome others to our world?	Explorers and expeditions	What are the best ways to travel?
AOLEs - Statements of what matters												
Expressive Arts												
Exploring the expressive arts is essential to developing artistic skills and knowledge and it enables learners to become curious and creative individuals.												
Responding and reflecting, both as artist and audience, is a fundamental part of learning in the expressive arts.												
Creating combines skills and knowledge, drawing on the senses, inspiration and imagination.												
Health and Well-being												
Developing physical health and well-being has lifelong benefits.												
How we process and respond to our experiences affects our mental health and emotional well-being.												
Our decision-making impacts on the quality of our lives and the lives of others.												
How we engage with social influences shapes who we are and affects our health and well-being.												
Healthy relationships are fundamental to our well-being.												
Humanities												
Enquiry, exploration and investigation inspire curiosity about the world, its past, present and future.												
Events and human experiences are complex, and are perceived, interpreted and represented in different ways.												
Our natural world is diverse and dynamic, influenced by processes and human actions.												
Human societies are complex and diverse, and shaped by human actions and beliefs.												
Informed, self-aware citizens engage with the challenges and opportunities that face humanity, and are able to take considered and ethical action.												

COVERAGE CHART KEY ACTIVITIES	What is a designated landscape?	How can we develop a trail?	How do we use energy?	What is pollution?	Inspirational Wales	What are the myths and legends of Wales?	What decisions would you make as a leader in the world?	How are different areas regenerated?	How can we conserve biodiversity?	How can we welcome others to our world?	Explorers and expeditions	What are the best ways to travel?
AOLEs - Statements of what matters												
Languages, Literacy and Communication												
Languages connect us.												
Understanding languages is key to understanding the world around us.												
Expressing ourselves through languages is key to communication.												
Literature fires imagination and inspires creativity.												
Mathematics and Numeracy	Mathematics and Numeracy											
The number system is used to represent and compare relationships between numbers and quantities.												
Algebra uses symbol systems to express the structure of mathematical relationships.												
Geometry focuses on relationships involving shape, space and position, and measurement focuses on quantifying phenomena in the physical world.												
Statistics represent data, probability models chance, and both support informed inferences and decisions.												
Science and Technology												
Being curious and searching for answers is essential to understanding and predicting phenomena.												
Design thinking and engineering offer technical and creative ways to meet society's needs and wants.												
The world around us is full of living things which depend on each other for survival.												
Matter and the way it behaves defines our universe and shapes our lives.												
Forces and energy provide a foundation for understanding our universe.												
Computation is the foundation for our digital world.												

COVERAGE CHART KEY ACTIVITIES	What is a designated landscape?	How can we develop a trail?	How do we use energy?	What is pollution?	Inspirational Wales	What are the myths and legends of Wales?	What decisions would you make as a leader in the world?	How are different areas regenerated?	How can we conserve biodiversity?	How can we welcome others to our world?	Explorers and expeditions	What are the best ways to travel?
Literacy and Numeracy Framework												
Literacy												
Translanguaging												
Listening												
Listening for meaning												
Developing vocabulary												
Listening to understand												
Listening as part of collaborative talk												
Reading												
Phonological and phonemic awareness												
Reading strategies												
Understanding, response and analysis												
Speaking												
Clarity and vocabulary												
Purpose												
Collaborative talk												
Questioning												
Writing												
Vocabulary, spelling, grammar												
Connectives and syntax												
Punctuation												
Planning and organising for different purposes, audiences and context												
Proofreading, editing and improving

Literacy and Numeracy Framework												
Numeracy												
Developing mathematical proficiency												
Conceptual understanding												
Logical reasoning												
Fluency												
Strategic competence												
Communicating with symbols												
Understanding the number system helps us to represent and compare relationships between numbers and quantities												
The number system												
Relationships within the number system												
Calculation												
Financial literacy												
Learning about geometry helps us understand shape, space and position,	and learn	ing abo	out mea	sureme	ent help	s us quantify	in the real wor	ld			0	
Measurement												
Shape and space												
Position												
Angle												
Learning that statistics represent data and that probability models chance	e helps us	make i	nforme	d infere	nces ar	nd decisions	· · · · · ·				•	<u>^</u>
Collecting data												
Representing data												
Interpreting data
