#### **COVERAGE CHART**

#### HOW CAN WE WELCOME OTHERS TO OUR WORLD?

The shaded boxes indicate the range of opportunities learners may have to access the Statements of what matters (SoWMs). However, learners could have opportunities to access other AoLEs and SoWMs, especially if elements of each activity are used flexibly or adapted for learner needs and interests.

AOLEs - Statements of what matters		
Expressive Arts		
Exploring the expressive arts is essential to developing artistic skills and knowledge and it enables learners to become curious and creative individuals.		
Responding and reflecting, both as artist and audience, is a fundamental part of learning in the expressive arts.		
Creating combines skills and knowledge, drawing on the senses, inspiration and imagination.		
Health and Well-being		
Developing physical health and well-being has lifelong benefits.		
How we process and respond to our experiences affects our mental health and emotional well-being.		
Our decision-making impacts on the quality of our lives and the lives of others.		
How we engage with social influences shapes who we are and affects our health and well-being.		
Healthy relationships are fundamental to our well-being.		
Humanities		
Enquiry, exploration and investigation inspire curiosity about the world, its past, present and future.		
Events and human experiences are complex, and are perceived, interpreted and represented in different ways.		
Our natural world is diverse and dynamic, influenced by processes and human actions.		
Human societies are complex and diverse, and shaped by human actions and beliefs.		
Informed, self-aware citizens engage with the challenges and opportunities that face humanity, and are able to take considered and ethical action.		
Languages, Literacy and Communication		
Languages connect us.		
Understanding languages is key to understanding the world around us.		
Expressing ourselves through languages is key to communication.		
Literature fires imagination and inspires creativity.		

#### **COVERAGE CHART**

# HOW CAN WE WELCOME OTHERS TO OUR WORLD?

AOLEs - Statements of what matters		
Mathematics and Numeracy		
The number system is used to represent and compare relationships between numbers and quantities.		
Algebra uses symbol systems to express the structure of mathematical relationships.		
Geometry focuses on relationships involving shape, space and position, and measurement focuses on quantifying phenomena in the physical world.		
Statistics represent data, probability models chance, and both support informed inferences and decisions.		
Science and Technology		
Being curious and searching for answers is essential to understanding and predicting phenomena.		
Design thinking and engineering offer technical and creative ways to meet society's needs and wants.		
The world around us is full of living things which depend on each other for survival.		
Matter and the way it behaves defines our universe and shapes our lives.		
Forces and energy provide a foundation for understanding our universe.		
Computation is the foundation for our digital world.		
Literacy and Numeracy Framework		
Literacy		
Translanguaging		
Listening		
Listening for meaning		
Developing vocabulary		
Listening to understand		
Listening as part of collaborative talk		
Reading		
Phonological and phonemic awareness		
Reading strategies		
Understanding, response and analysis		
Speaking		
Clarity and vocabulary		
Purpose		
Collaborative talk		
Questioning		

# HOW CAN WE WELCOME OTHERS TO OUR WORLD?

Vocabulary, spelling, grammar  Connectives and syntax  Punctuation  Planning and organising for different purposes, audiences and context  Proofreading, editing and improving  Numeracy  Developing mathematical proficiency  Conceptual understanding  Logical reasoning  Fluency  Strategic competence  Communicating with symbols  Understanding the number system helps us to represent and compare relationships between numbers and quantities  The number system  Relationships within the number system  Calculation  Financial literacy  Learning about geometry helps us understand shape, space and position, and learning about measurement helps us quantify in the real world  Measurement  Shape and space  Position  Angle  Learning that statistics represent data and that probability models chance helps us make
